

I Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM Radio's ability to provide the kind of programming that I demand and deserve. You see, I pay for this service because I became disenchanted with the horrendous quality and content of both AM and FM broadcasts in America. I need no lobbying or govenment intervention involved in a service that I pay for. I am TOTALLY satisfied with both the content and quality of the XM broadcasts. The accuracy of the weather and traffic forecasts are also as or more accurate than the "local broadcasts"
